KP Group was founded by Dr. Faruk G. Patel in 1994 which is now well recognized group of Gujarat. What started as a logistics service provider in 1994 is now a Billion business empire consisting of 43 entities / conglomerates. The combine portfolio is 8.5+GW in renewable energy till FY26. The Group has completed more than 31+ years of its successful operations and today consists of several group of companies, all contributing to the fast and robust growth of the group. During the last decade the group has achieved phenomenal growth as a result of diversification into fabrication and galvanizing, renewable energy sector (Solar, Wind & Hybrid), & lately in Green Hydrogen & Ammonia, BESS & other renewable energy segments.

A deeply Philanthropic person, Dr. Patel dedicates far more resources to social causes than the mandated CSR requirement of 2 percent. In fact, **between 8 and 10 percent of the group's funds are invested in public welfare initiatives**, including education, healthcare, and various social development activities. KP Human provide Humanitarian activities, educational activities and others without any biasness of gender, caste, creed, culture or even colour.

Key impact figures include

1.25+ crore beneficiaries reached through humanitarian initiatives

300+ social initiatives across education, healthcare, environment, and community welfare

₹14+ crore spent on humanitarian activities in FY 2024-25

14,500+ students supported through educational programs. (Primary School for UPSC Preparation)

1.11 lakh people receiving meals annually through food initiatives

Contributions in the field of Education

The **KP Human Development Foundation** works actively to uplift underprivileged students and improve the quality of education. Its efforts extend from **primary education to higher education**, including preparation for competitive examinations and civil services.

The foundation has adopted **five schools under the Surat Municipal Primary Education Committee**. In addition, it has adopted the **113-year-old Rao Saheb J.C. Munshi School**, which operates under the Sarvajani Education Society. It has also adopted **Prabhu BCA College**, an institution dedicated to students with disabilities.

The objective is to ensure that students studying in Government schools receive educational facilities and quality comparable to those in private institutions.

To strengthen students' communication skills and expand their career opportunities, the foundation has introduced **spoken English classes in its adopted schools**. Notably, KP Human has become the **first foundation to introduce spoken English programs in government schools specifically for students from Grades 5 to 8**.

In addition, more than **1,700 talented but economically disadvantaged primary school students in Surat** have been identified through examinations and provided with scholarships.

In collaboration with **PP Savani University**, the foundation has launched the **UrjaNoor Scholarship Program**, offering completely free education in **B.Tech and Diploma Engineering programs**. Currently, **92 students are studying sustainable energy disciplines** under this initiative.

Furthermore, under the **Government of India's Unnat Bharat Mission**, IIT students from five villages adopted by SVNIT are provided **one-week training programs to build careers in the renewable energy sector**. So far, more than **180 students have received this training**, which will continue for three years.

KP Group also plans to **offer employment opportunities to deserving students** from economically disadvantaged backgrounds whose dreams may otherwise remain unfulfilled.

The foundation also conducts programs in collaboration with various educational institutions for **competitive examinations such as CA Foundation, NEET, JEE, UPSC, and GPSC.**

Recently, 12 students got qualified for Civil services under collaboration with Sarvajani Education Foundation.

Dr. Faruk G. Patel says "If we educate one child, then not just entire family, but society and nation as whole is benefitted."

So far, **over 14,500 students have benefited through educational initiatives**, and the foundation currently collaborates with more than 150+ educational institutions.

Additionally, KP Human has developed **12 high-tech libraries, computer laboratories, restored educational institutions, and improved Anganwadi centers** to strengthen the educational ecosystem.

The foundation has also taken responsibility for developing **16 schools in regions such as Surat, Porbandar, Bhavnagar, Matlapor, and Ratadi.** These initiatives include modern classrooms, prayer halls, libraries, and educational kits distributed to students during school enrolment drives.

Healthcare Initiatives

Fighting Thalassemia and Preventable Blindness

Healthcare is another major pillar of the foundation's humanitarian mission.

The KP Human Development Foundation actively supports thalassemia patients, providing financial assistance for treatment, blood transfusions, and medical care. The foundation actively helped in collecting and donating **828 units of blood annually to cure children suffering from Thalassemia**, a genetic blood disorder requiring lifelong treatment. Through its initiatives, the foundation helps patients receive timely medical support and encourages awareness programs aimed at prevention and early diagnosis.

In addition, the foundation along with their associates provide cataract screening and surgery facilities for economically weaker sections of society.

Cataracts remain one of the leading causes of preventable blindness in India. Through these camps, 300+ patients from rural and economically disadvantaged communities receive free eye check-ups, surgeries, and post-operative care, enabling them to regain their vision and improve their quality of life.

The group has also donated ambulances and mortuary vans to many villages for better facilities.

By addressing both chronic health conditions such as thalassemia and preventable diseases like cataracts, the foundation contributes to building a healthier and more dignified society.

We today are associated with **15+ hospitals** including Cancer Hospital and we also provide financial help under good health mission. In order to serve the society better we have also taken stake in Divine Hiba Hospital.

The World's First Old-Age Home for Persons with Disabilities

Dr. Faruk Patel is also constructing what is believed to be the world's first dedicated old-age home for persons with disabilities.

Located in Unchediya village in Jhagadia taluka of Bharuch district, this facility will span approximately 90,644 square meters and will be developed as a modern, farm-house style residential facility named "Prabhu Nu Ghar."

We have special place in our hearts for Especially abled people and hence we provide them assistance so that they can become capable to join mainstream.

The estimated cost of the project is ₹22 crore.

The foundation stone for the project was laid by Gujarat Chief Minister Bhupendra Patel, and approximately 80 percent of the construction work has already been completed.

Upon completion, the facility will be handed over to Padma Shri Dr. Kanubhai Tailor, Founder Trustee of the Disabled Welfare Trust of India, Surat.

Apart from this project, KP Human also collaborates with **more than 30 old-age homes, orphanages, and institutions supporting visually impaired, hearing impaired, and other vulnerable communities.** Like this we are strengthening more than 35 other institutions.

Village Development

Under its environmental sustainability initiatives, KP Group, through the KP Human Development Foundation, actively undertakes **pond development and restoration projects** to address water conservation and ecological balance.

Under this initiative the foundation has developed four ponds. By rejuvenating village ponds, the foundation helps improve groundwater levels, supports irrigation, and ensures water availability for local communities and livestock. These efforts not only strengthen rural water security but also contribute to environmental restoration, making pond development a key step toward sustainable and climate-resilient communities.

The foundation has also donated generously tractors, garbage collection vehicles, dustbins, ambulances etc to help the villages live a better life.

Environment

The group and the KP Human Development Foundation place strong emphasis on **environmental sustainability and conservation**, making it a core part of their mission to "protect the Earth by conserving nature."

One of their key focus areas is **large-scale tree plantation and green cover development.** The foundation has undertaken plantation drives such as planting **1,700+ mango trees and 400 palm trees in Ranada, Bharuch** along with ongoing maintenance to ensure long-term ecological impact. In addition, broader initiatives like "Green Yodha" campaigns further promote community participation in environmental protection. The group has saved carbon emissions equivalent to 28 Cr trees planted.

Another major contribution is in **water conservation and ecological restoration, including pond development, rainwater harvesting systems, and sustainable resource management practices.** These initiatives help improve groundwater levels, support agriculture, and build climate-resilient rural ecosystems.

Along with **mangrove plantation programs** in coastal areas to strengthen biodiversity, prevent soil erosion, and protect marine ecosystems. Taking the total to more than 7 lakh mangroves and trees planted.

Religious Pilgrimages Without Discrimination

Dr. Faruk Patel strongly believes in **interfaith harmony.** He does not believe in discrimination based on religion, caste, community, or social background.

Through KP Human Development Foundation:

- Orphaned daughters married through the **PP Savani mass wedding initiative** are sponsored for pilgrimage tours.
- Their mothers and mothers-in-law are sponsored for the **Char Dham pilgrimage.**
- Muslim daughters are supported in performing the **Umrah pilgrimage to Mecca and Medina.**

Dr. Patel often sends his family members or members of his core team to accompany these pilgrims to ensure their comfort and safety.

In addition, **11 children with disabilities and their parents from the Disabled Welfare Trust school** were sponsored for pilgrimage to Mecca and Medina.

Earlier, **71 children with disabilities from the same school**, along with their caregivers and teachers, were taken on a pilgrimage tour to **Haridwar, Rishikesh, and Mussoorie.** To ensure a smooth journey, **10 members of Dr. Patel's core team accompanied the group.**

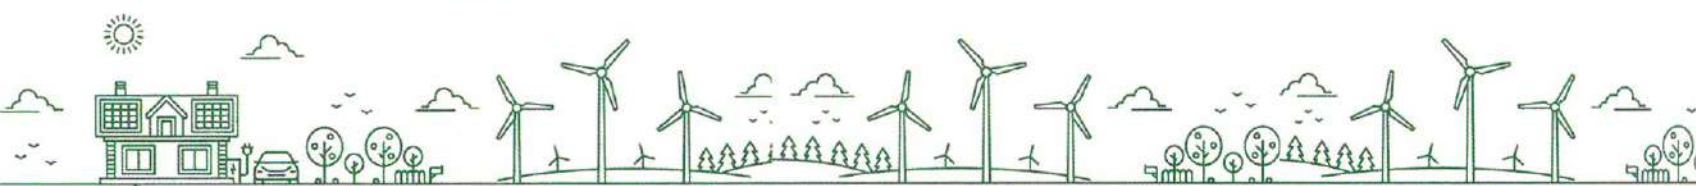

Daily Community Meals for the Needy

Through the **KP Human Development Foundation**, daily meals are provided to people in need.

At **Chowk Bazaar in Surat**, a daily community kitchen serves food to more than 36,000 people annually.

In collaboration with **Chhayado Foundation**, meals are also provided to patients and their relatives at **New Civil Hospital in Surat**, serving **more than 75,000 people every year.**

The foundation has also collaborated with renowned Akshay Patra and is now providing mid-day meals to more than 3300 students in various schools.

Rehabilitation & Welfare for Prisoners

The foundation also works toward the welfare and rehabilitation of prisoners.

At **Surat Lajpore Central Jail**, special meals are arranged for inmates observing fasts during the **Shravan month**, as well as **Sehri and Iftar arrangements during Ramadan**.

Similar initiatives are carried out in **Bharuch Jail**.

During **Diwali**, sweets are distributed to prisoners, while **Sheer Khurma (Sevaiya)** is served during **Eid** celebrations.

To improve living conditions, the foundation has installed **12 solar geysers in prison** barracks, helping elderly prisoners, women inmates, and patients during winter months.

The foundation also assists prisoners who are unable to pay small fines and are unnecessarily serving extended sentences, helping them secure release.

In one initiative, prisoners created **130 paintings**, which were displayed in an exhibition. In the presence of the Home Minister, Dr. Patel purchased these paintings for **₹11.16 lakh**, contributing the amount to the **Prisoner Welfare Fund**.

During the COVID-19 period, KP Human donated **two flour-kneading machines and three automatic roti-making machines** to Lajpore Central Jail. Previously, staff had to prepare thousands of rotis manually every morning. Now, **approximately 3,000 rotis can be prepared within one hour**, improving efficiency and quality.

In December 2021, the foundation also constructed a **modern gym facility worth approximately ₹4 lakh inside the prison**, considered **the first gym facility inside a prison in India**.

Additional initiatives include:

- Organizing cricket tournaments for prison staff
- Upgrading prison libraries
- Arranging special meals for women prisoners
- Continuous rehabilitation and reform initiatives

Police Station Redevelopment

The following activities are being done for the redevelopment of police stations:

Provide funds to the police department for sports and cultural activities

Helping traffic police with umbrellas in summer and barricades to control the traffic and installing CCTV cameras at critical locations.

Darkness to Light

Under its **“Darkness to Light”** initiative, KP Group, through the KP Human Development Foundation, is driving sustainable impact by installing **solar rooftop systems for underserved communities and institutions**. This initiative aims to provide reliable, clean, and cost-effective electricity to places that struggle with power access or high energy costs. By enabling solar adoption, the foundation not only reduces electricity expenses for beneficiaries but also promotes environmental sustainability and energy independence—transforming lives by literally bringing light into spaces that need it the most.

Women Empowerment

The Foundation is also keen to cherish the women empowerment by providing many underprivileged women various entrepreneurial courses like sewing, Mehndi creation, Cake making, beauty parlour, and other courses so that women can become financially independent.

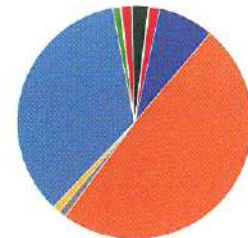

Recently a Menopause awareness and psychological betterment seminar was organized by the foundation to help women understand the symptoms of menopause and how to heal ourselves psychologically during this period.

Sports Leverage

KP Group, through the KP Human Development Foundation, promotes sports as a tool for community development, health, and youth empowerment. At the grassroots level, it has developed rural sports infrastructure such as village cricket grounds and organized inclusive events like the **Unity Cup for Divyang players**, ensuring participation across all sections of society.

At the institutional level, the foundation supports competitive sports by sponsoring events like the **Gujarat State Powerlifting Championship** and backing elite athletes such as **Guinness World Record holder Vispy Kharadi**. Simultaneously, large-scale school sports initiatives encourage mass participation among students, integrating sports with education for holistic development.

KP Human Development Foundation: Snapshot
